Spirulina may be the most concentrated source of nutrition known. It contains all the essential amino acids and is high in: B vitamins, digestive enzymes, beta carotene, iron, trace minerals and is over 60% protein. It also contains the rare essential fatty acids: GLA

Studies show this "Superfood" has truly amazing properties. Some of the well known benefits are:

Power antioxidant

Boosts energy quickly

Immune system enhancer

Supports healthy cell functions

Increases "good" intestinal flora

Naturally detoxifies and cleanses
