Company History:

Govindas Juice was founded by Jim Eichler and incorporated in 1987.

A small and humble beginning servicing mostly health food stores. The company

quickly entered the food service industry and also expanded to the outer Islands.

Currently Govindas Juice is supplied throughout the island chain and can be found in

both retail operations, and throughout the food service industry. We expect to

continue our growth as more and more customers are appreciating our commitment

to quality and service.

Company Philosophy:

Govindas Juice is committed to a standard of quality and service that goes above and beyond the industry standards.
